

K-LOVE radio station has allowed me to have a continuous, commercial free, positive influence in my day-to-day living for the past 7 years. It has been available to me during many desperate times and has encouraged me to keep searching for answers to my problems.

I am aware of MANY people, Christian and non-Christian, in this community who listen to K-LOVE for the powerful, positive message it brings. I live in an area of the United States that has an extremely high rate of drug addiction per capita, one of the highest unwed pregnancy rates in the nation, and needs the input of this radio station. If this station were to be replaced by something other than K-LOVE, it is possible an alternative radio station could actually promote drug use or other undesirable attitudes that would further destroy this community.\

I believe that the positive influence of K-LOVE radio is a very important service to my community. I believe the positive influence they have on each and every person who hears this radio station, including the people in my work force who come in contact with it only at my desk, are profoundly impacted by the music and commentary they hear.

I therefore urge the FCC to continue to allow K-LOVE to continue broadcasting in this community in the current format.

Thank you.
